Press Note

The students of Jyoti Vidyapeeth Women's University, Jaipur, visited the office of "True Value Infosoft" for a hands-on experience.

Jyoti Vidyapeeth Women's University organized this visit for its students to gain practical knowledge and insights from industry experts regarding practical work.

This visit to the True Value Infosoft office was a significant opportunity for the students to explore the industry's concepts and, at the same time, gain knowledge in the fields of technology and innovation, as well as valuable opportunities.

During this event, Mr. Vivek Goyal, the director of True Value Infosoft, provided live training to all the students on various aspects of the software industry, ranging from developing mobile applications to live deployment on app stores.

Seventy-two students participated in different activities, including designing on Figma tools with experts from various IT domains, coding mobile apps on Android Studio, project planning and testing related to Jira software, and practical training in these areas.
